DETAILED ACTION

1. Amendment and response filed by applicants in paper No. 6 dated Oct. 29, 2003 have been entered and considered carefully.

Claims 1-67 and newly added claims 68-70 are pending.

2. The rejection of claims 49-55, 57-59, 63-67 under 35 USC 112 first paragraph is also applicable to the newly added claims 68-70 and is maintained for reason of record.

Applicants argued that the term "*modulation*" is a term well known and unlike the definition asserted by the examiner, does not require the simultaneous enhancement and inhibition of an activity by a single compounds but is achieved by administering a compound. Then, if modulation means the compounds neither enhances nor inhibits, merely administered, then, what "modulation" did the compound achieve? Applicants have been given citations from the art to understand the ordinary level of understanding in this particular art. Mere arguments without factual evidence by the attorney are entitled to little weight. In re Lindner 173 USPQ 356.

The specification while disclosed how to administer the compounds, lacks *guidance* in which compound achieves what i.e. how to pick based on merits the different compounds for the particular utility among the enormous "possibilities" of diverse utility. Especially, the prior art cited in the previous office action clearly stated that the field is very complex and unpredictable and no extrapolation should be made (see Vechiarelli).

3. The rejection of claims 1, 4, 6, 9, 12, 22, 24, 25, 28, 30, 34, 36, 37, 40 under 35 USC 102(b) over Muller WO 98/54170 is maintained for reason of record.

Please note that the proviso, placed the instant claims *specifically* to the anticipatory species of Muller '170, see particularly p.20-21, examples 12-14 being drawn to explicitly the R2 is H or alkyl, n=0 compounds where now the proviso limitation dictates.

Art Unit: 1625

4. The rejection of claims 1-67 under 35 USC 103(a) over Muller '517 in view of Muller '170, Bundgaard, Naik CA118 and Smith '117 which is also applicable to claims 68-70, is maintained for reason of record.

The allegation of applicants that the rejection contains "impermissible hindsight" is erroneous. Applicants are urged to consult the previous office action pages 3-4 wherein the explicit teaching, the motivation and reasonable expectation of success were clearly delineated for disclosure and suggestion clearly stated by the "prior art". Contrary to applicants' allegation, no "impermissible hindsight" based on applicants' teaching was ever implied. The "drug" is known, the preparation of prodrug is known, the suggestion which motivate one skilled in the art to prepare a drug into its prodrug was found in Smith '117, col. 4, lines 1-5. The rejection was proper and no impermissible hindsight was used.

5. The rejection of claims 1-67 under 35 USC 103(a) over claims 1-2 of US 6,395,754 or provisional rejection of claims 1-67 over claims 1-12 over copending SN 09/972487 in view of Bundgaard, Naik CA118 and Smith '117 which are also applicable to claims 68-70, are maintained for reason of record.

The gist of applicants' argument is based on the same allegation of hindsight construction which contrary to applicants' allegation was not found.

No terminal disclaimer was filed.

6. Claim 34 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Please note that the instantly amended claim 34 is an independent claim. Claim 34, does not contain any definition for R².

Art Unit: 1625

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

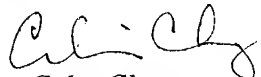

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Celia Chang whose telephone number is 703-308-4702. The examiner can normally be reached on Monday through Thursday from 8:30 am to 5:00 pm.
